

BabyNet Referral

Primary referral sources, including hospitals, physicians, health care providers, social service agencies, day care providers, therapists, etc., are required to refer a child who may benefit from early intervention services to BabyNet within two working days after identification (34 CFR Sec. 303.321). The Child Abuse and Prevention Treatment Act (CAPTA) (P.L. 108-36) also requires the South Carolina Department of Social Services to refer infants and toddlers birth to three, with indicated abuse or neglect and those affected by substance abuse to the BabyNet System. Once referred, BabyNet will ask the parent(s)/guardian for consent before determining eligibility. Fields with an asterisk (*) below are required for all referrals. Shaded fields with (DSS) are required for DSS referrals. Additional information is helpful, but if not available, will not delay the referral.
